Monselise and Bar-Akiva Symposium on
“Abscission in Fruit Trees”

On Tuesday, June 06, 2017, 14:35 -18:00

Room 10, Kennedy Leigh A Building.
The R.H. Smith Faculty of Agriculture, Food and Environment, Rehovot,
The Hebrew University of Jerusalem, Israel,

Program:

14:35 - 15:00  Coffee and light refreshments.

15:00 - 15:15  Eliezer Goldschmidt, HUJI, Rehovot: Welcome and short background on Prof. Monselise and Prof. Bar-Akiva.

15:15 -16:00  Memorial Lecture: Alessandro Botton, University of Padova, Italy: Apple as a model crop for abscission studies.

16:00 -16:20  Michal Ackerman (A. Samach lab), HUJI, Rehovot: Studying when and how the fate of an apple fruitlet to abscise or persist is determined by its neighboring fruitlets.

16:20 – 16:40  Omer Crane, NR&D, Kiryat Shmona: The influence of auxin chemical thinning on Golden Delicious fruitlets abscission

16:40 - 17:00  Giora Ben-Ari, ARO, Bet Dagan: Olive fruitlets abscission.

17:00 – 17:20  Vered Irihimovitch, ARO, Bet Dagan: Distinct spatial and temporal expression profiles of auxin-related genes during mango fruitlet drop.

17:20 – 18:00  refreshments.

 Establishment of the Monselise and Bar-Akiva Memorial Foundation was made possible by donations from: The Citrus Marketing Board (currently, the Citrus Division, The Plants Production and Marketing Board) with the Citrus Products Board, Pri-Or., Ltd (currently, Mehadrin, Ltd), The International Society of Citriculture
