List of Abstracts

Eligibility

- *The candidate must have an official and valid Ph.D. or D.Sc. degree from a recognized university.*

- *The candidate is eligible to apply for the fellowship program no later than the first 5 years from the date of reception of the official Ph.D. or D.Sc. degree.*

- *The candidate must be in a postdoctoral status, and cannot hold a position as a researcher in a university or a research center when applying for the fellowship program.*

Mentor agreement and project description

The list of potential mentors and related research projects is available via the link:

https://www.agri.gov.il/en/pages/1790.aspx?Preview=1

Please select a mentor and contact him/her personally to discuss the possibility to join his/her research group on a specific project. If the outcome is positive, you should ask the mentor to provide you with a letter of agreement regarding his/her willingness to host you and to contribute to your fellowship. Please attach the mentor's letter of agreement to your submission (PDF file).
Please describe also succinctly your contribution to the project you are joining during your stay in the mentor's lab.
The mentor's agreement to host you does not mean that you have been accepted to the program. All the valid submissions will be evaluated by a committee, that will consider the scientific merit of each submission file. Final decisions will be issued to the best candidates depending on the number of available fellowships.

Please note that :
You can apply only once and only with one mentor.
Mentors can support only one application and can deliver only one letter of agreement.
Multiple applications will not be considered.
Applications without the mentor agreement letter will not be considered.

Names of three referees that you have asked them to send recommendation letters directly to Liraz Bergman: *liraz@volcani.agri.gov.il*
1. *Ph.D. Supervisor*
2. *Referee #2*
3. *Referee #3*
