

Gender Equality at the Agricultural Research Organization Vision

The Research Organization is entrusted with research and development in the fields of agriculture and environment.

In order to maximize human capital in general and female capital in particular, the Organization will plan, promote, and ensure the implementation of organizational practices that ensure gender fairness among its employees.

Using the range of tools at its disposal, the Organization will act across all fronts of gender fairness, including:

- * Adequate female representation in senior levels, in management positions, in committees and in conferences.
- * Equal allocation of salary components.
- * Creating working conditions which promote a work-life balance.
- * Taking a zero-tolerance policy toward gender harassment of any kind.
