

- B.Sc., Faculty of Life Sciences, **Tel Aviv University**, Israel.
- M.Sc., Department of Biochemistry, The Faculty of Life Sciences, **Tel Aviv University**, Israel. Supervision by: Prof. Irit Aviram.

Title of thesis: Human Neutrophil Phospholipase C: Properties and involvement in the activation of NADPH oxidase.

- Ph.D., Department of Neurobiology, **The Weizmann Institute of Science**. Supervision: Prof. Michal Schwartz.

Title of thesis: Cross talk between cells derived from the immune and the nervous system – implications for nerve regeneration.

- Postdoctoral position, The Department of Chemical Immunology, **The Weizmann Institute of Science**, with Prof. Edna Mozes.

Research subject: Mechanism of action of a newly developed peptide drug for Myasthenia Gravis and Systemic Lupus Erythematosus (SLE).
