SAVE THE DATE

The **Agriculture under Climate Change Research Center** is
pleased to invite you to a webinar with:

Prof. Dr. Senthold Asseng

Technical University of Munich, Germany

Thursday July 3rd 2025
11:00 (GMT+3)

Location: Online

The talk title will be announced soon

Prof. Asseng's field of research is the analysis of atmosphere-crop-soil systems. His main research areas **include impact of climate variability and climate change**, cropping sustainability, food security, and how systems analysis and crop modelling can assist autonomous robot-managed cropping systems in the field and in fully-environmentally controlled indoor vertical farming.
