SAVE THE DATE

The Research Center for Agriculture under Climate Change,
in collaboration with the FCCF consortium,
happy to invite you to a special webinar:

Prof. Dr. Senthold Asseng

Technical University of Munich, Germany

“The impact of climate change on wheat”

Thursday, July 3rd 2025

11:00 (Israel time)

Prof. Asseng's field of research is the analysis of atmosphere-crop-soil systems. His main research areas **include the impact of climate variability and climate change**, cropping sustainability, food security, and how systems analysis and crop modeling can assist autonomous robot-managed cropping systems in the field and in fully-environmentally controlled indoor vertical farming
