Agricultural Research Organization

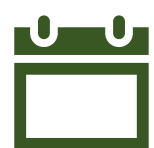

## SAVE THE DATE

The Research Center for Agriculture under Climate Change  
is happy to invite you to a special webinar:

# Prof. Dr. Heribert Hirt

Head of Darwin21 Desert Research Initiative  
King Abdullah University of Sciences and Technology

**“Harnessing the desert plant-soil-microbiome  
for ensuring food safety under climate change  
conditions”**

**December 16<sup>th</sup> 2025**

**11:00 AM (Israel time)**

Heribert Hirt has published several hundred articles on how plants can survive under abiotic or biotic stress conditions. His current research focuses on how beneficial microbes can help to grow plants under climate change and increasing chemical challenges. His work aims to transform agriculture to produce healthy food for everyone.
